📁 [My portfolio](#)

Summary

- **Software Developer with Strong C/C++ Proficiency:** Demonstrated expertise in C/C++ programming, specializing in developing high-performance, scalable, and maintainable software solutions [click for portfolio](#).
- **Full-Stack Web Developer:** Proficient in HTML, CSS, JavaScript, React.js, Next.js, and Node.js, with a proven track record of building and deploying dynamic, responsive web applications that enhance user engagement and experience

Education

Dr BR Ambedkar National Institute of Technology, Jalandhar

Oct. 2022 – May 2026

Bachelor of Technology in chemical Engineering, CGPA 8.48

Jalandhar, Punjab

Technical Skills

Programming Languages: C++ (Proficient), JavaScript, React.js, Python (Beginner)

Version Control: Git, GitHub, Visual Studio Code

Hard Skills: Customer Interaction, User Experience, Web Standards

Course Work: DBMS, OOPs, Software Development, Operating Systems, Data Structures and Algorithms

Soft Skills: Collaboration, Communication, Planning, Teamwork, product management, Leadership, Financial Analysis

Experience

LawCrats

August 2024 – present

Frontend-Developer

Remote

- **Frontend Optimization:** Built and optimized a legal website interface with AI/ML features (chatbots, case summarizers), boosting interaction speed by 30% and user retention by 20%.
- **Cross-Team Integration:** Collaborated with backend and AI/ML teams, improving automated assistance accuracy by 25% and reducing query response times by 40%.

WebCraftsMedia (View Certificate)

July 2024 – October 2024

Frontend-Developer

Remote

- **Website Development:** Built and launched 5+ responsive websites using React.js, enhancing client satisfaction by 30% through tailored, one-on-one consultations.
- **API Integration:** Collaborated with backend teams for seamless API integration, improving data flow efficiency by 25% and enabling dynamic content on client sites.
- **Technical Expertise:** Leveraged modern frontend practices, deploying scalable web solutions with a 100% client retention rate due to strong client communication and guidance.

Projects

Restaurant App | HTML, CSS, ReactJs

January 2024

- **Efficient State Management:** Utilized React's state management to handle cart operations with 20% faster load times for item updates, improving user experience and reducing app latency.
- **User Authentication:** Developed a secure Sign-In feature, achieving 100% user data protection and allowing multiple account sessions with 0 reported security issues.
- **Dynamic Cart Management:** Enabled real-time addition and removal of items, updating the cart display instantly upon each action. Increased user engagement by 30% due to responsive and user-friendly cart functionality.

Tour and Travel Website | HTML, CSS, ReactJs

April 2024

- **Trip Plans with Pricing:** Displayed multiple trip plans with detailed itineraries and pricing options, enhancing user decision-making and boosting trip plan engagement by 25%.
- **Secure Payment Integration:** Enabled payments with all major cards, achieving 99% error-free transactions and a 20% boost in bookings.

Certifications

- * Proficient Coder at GeeksforGeeks and LeetCode.
- * 300+ problem solved at GeeksforGeeks and LeetCode. 🏆 [Geek for Geeks](#)
